

Name: _____

Area of a Rectangle

To find the area of a rectangle, multiply the length by the width.

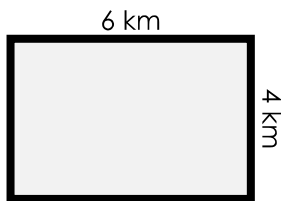

example:

$$\text{area} = 4 \text{ m} \times 8 \text{ m} = \underline{\underline{32 \text{ square meters}}}$$

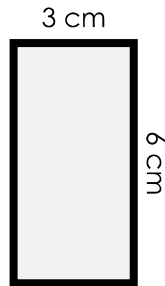

Find the area of each rectangle by multiplying

a.

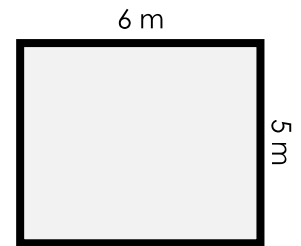

area = _____

b.

area = _____

c.

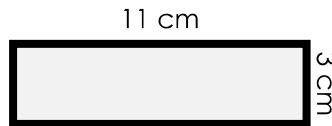

area = _____

d.

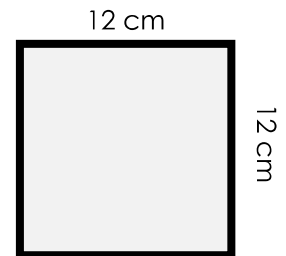

area = _____

e.

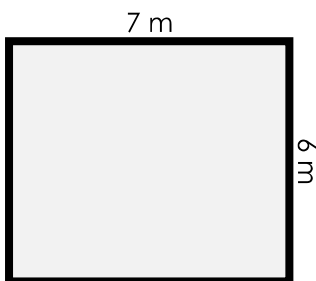

area = _____

f.

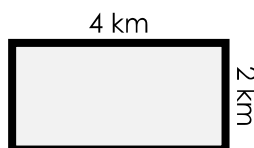

area = _____

g.

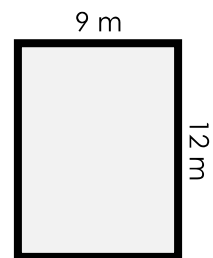

area = _____

h.

area = _____

i.

area = _____
