Mr. Colgate	Intro to Programing Using Scratch	williamcolgateahs	10AM-6PM EST M-F

The American High School SKYPE service will allow the student to communicate with the teacher with or without a video component. A headset and/or webcam will be needed for the video component of SKYPE.

If student is unable to use SKYPE for any reason, we strongly advise that the student send a message to the teacher via the message center to request a conference with the teacher. The teacher will then contact the student directly using the contact information on file.
